\* Examples of profit centers would be different products or services categories by the same owner(s). For example, if a company offers cabin rentals, and also floating services, they would be different profit centers. Another example would be a rental cabin and real estate agency.

The basic membership for the Chamber offers a summary listing, and one profit center listing. If a company has multiple profit centers it may choose to highlight only one. Profit centers #3 and above would be \$50 each for an additional page, and an additional listing. In the example above, an additional \$50 would purchase an additional single page to advertise the floating services. This additional page would also be listed in a summary page on all floating services.

\*\*Additional pages may be purchased for \$50 a year to expand upon a profit center listing. For example, cabin business x has 2 very different cabins and wishes to explain each in detail separately. By purchasing the additional page, members can avoid a very long page, and show a number of pages for that cabin business. (Very long pages are not a good idea, but there is no requirement to purchase additional pages. It is offered as an option.) The cabin business is entitled to one summary listing as a cabin business regardless of the number of additional pages it may purchase.

\*\*\*Artists may join the BRC for \$50 a year. Please make checks out to Buffalo River Chamber.
